WASHINGTON STATE DEPARTMENT OF
Natural Resources
Doug Sutherland - Commissioner of Public Lands

1 Current acreage is greater than reported. Some trust lands have been temporarily liquidated with the funds from those transactions being held to purchase replacement lands. The Department has various on-going and special purpose authorities to dispose of trust lands and to acquire replacement trust lands from the sale proceeds. The on-going authorities include: (a) RCW 79.01.009 and RCW 43.30.265, real property replacement account and (b) Chapter 79.66 RCW - Land Bank. Special purpose authorizations for State Park transfers and other designated trust land transfer projects include: (c) Laws of 1991, 1st Ex. Session, Chapter 14, Section 26; (d) Laws of 1993, 1st Sp. Session, Chapter 22, Section 459, and (e) Laws of 2001, Chapter 8, Section 415, 2nd. Special Session. The majority of acreage involved is common school and indemnity trust lands.

2 Effective July 1, 1999 the distribution of revenue on Agricultural College trust lands will be 100% to the agricultural college permanent fund or WSU bond retirement account. No deduction from proceeds will be made to the Resource Management Account. The management of the agricultural college trust lands will be funded from the Agricultural College Trust Management Account. Per Laws of 1999, Chapter 279 (SSB 6090).

3 Revenue is deposited into each regional university's respective bond retirement account. Effective July 1, 1995, The Evergreen State College received a five percent share of the revenue distributed. This share will increase five percent every other year until 2003 when all four regional universities will receive an equal share of revenue distributed. (Per Laws of 1993, Chapter 411, Sections 2 and 3).

4 Two laws from the territorial legislative assembly of 1854 established the University Territorial Grant. These were: "An Act to Locate the Territorial University" and "An Act to Provide for the Selection and Location of Two Townships of Land to Aid in the Establishment of a University." (Washington Territorial Laws, Vol. 2, P. 8,9; 1854 Session, passed 1855) These were repealed in 1860. Washington Territorial Laws Washington, Vol. 7, P. 293, 294; 1859 Session, passed 1860: "An Act to Provide for the Selection and Location of the Lands Reserved for University Purposes, and to Appoint a Board of Commissioners." Sections 1 and 2 of the 1860 Act were repealed in 1861. Washington Territorial Laws, Vol. 8, P. 16-18; 1860 Session, passed 1861: "An Act to Provide for the Selection and Location of the Land Reserved for University Purposes; to Appoint a Board of Commissioners, and to Provide for the Selection and Location of a Site for the Territorial University."

5 Laws of 1893, Chapter 122, Section 9 (uncodified) amended by Laws of 1903, Chapter 91, Section 1 (uncodified).

6 Effective July 1, 1997, the distribution of revenue on state forest board transfer lands will be 78% to the county where the revenue activity occurred and 22% to the forest development account. This was adopted by resolution of the Board of Natural Resources (#97-919) in February 1997. This change will be effective until the forest development account fund balance equals six months operating expenses.

7 In 1990 and 1992 the Board of Natural Resources authorized settlement of the FDA debt to the RMCA by transferring timber cutting rights on Forest Board Purchase lands to the Common School, Capitol Building, Normal School and University granted trusts. A one-third interest in assets (timber cutting rights) of the FDA on 35,636 acres was transferred to the trusts. The value of these transfers eliminated the debt between FDA and RMCA. (RCW 79.12.035)

8 The cumulative return to the forest board counties plus the portion distributed to the general fund is \$1,173,867,962 as of June 30, 2001.

9 Due to the difficulty of estimating average river widths and shortfalls in mapping database information, aquatic acreage estimates for lands abutting the Columbia and Snake rivers are under-represented. Lands managed as marine bedlands and tidelands abutting the Columbia River between Washington and Oregon, and lands managed as freshwater wetlands and shorelands abutting the Columbia and Snake rivers within Washington state, are considered to be under-represented. (Source: Aquatic Land Area Estimation Report - July 1999, produced for the 1999 Public Land Inventory Report to the Legislature by the Interagency Committee for Outdoor Recreation.)

10 Towns (municipal corporations of the fourth class): rents from any leased harbor area or tideland situated within the limits of a town shall be paid to the town twice each year by the State Treasurer to be expended for water related improvements (RCW 79.92.110). Fourth class towns are defined as population of 300 to 1500 at the time of organization (Chapter 35.27 RCW).

11 Management of certain areas of state-owned aquatic lands are delegated to Port Districts (RCW 79.90.935). No rent is due the Department for leases to third parties of state-owned aquatic lands for water dependant or water oriented uses as long as a Port Management Agreement exists between the Department and individual port districts.

12 Fund totals for RMCA, FDA, current and permanent trust funds include revenue from annual interest earnings. RMCA and FDA fund totals also include income, from non-trust specific activities. Annual and total accumulated revenue for the five permanent funds do not include investment earnings from the State Investment Board.
